THE BROADWAY WIDENING.

Argument on Appeal to the Supreme Court, General Term.

The Pros and Cons of the Case as Set Forth in the Speeches of Opposing Counsel.

The subject of the widening and straightening of broadway between Thirty-fourth and Fifty-ninth breets, and also widening Broadway, between hirty-second and Tairty-fifth streets, and Fortyand Porty-seventh streets, came up for argunt yesterday in the Supreme Court, General Term, iges Ingraham, Barnard and Cardozo on the The last named Judge, however, did not sit an official capacity, as the argument came up on appeal from his decision. Judge Learned, of stened with apparent deep interest to the argu-ent of the opposing counsel. In the preliminary earing in this matter the facts have been so fully ublished that it is only necessary to give a brief RESUME OF THE CASE.

By an act of the Legislature, passed May 17, 1869, is was provided that Broadwa, should be widened and straightened as specified above, and the Conund Park Commissioners were required to lay out and establish the lines. The act also required the Corporation Counsel, after the Com-missioners of the Central Park had made and filed the maps of the proposed alteration, to proceed in behalf of the Mayor, Aldermen and Commonaty to acquire title to the land required to widen and straighten Broadway, in the manner shown upon the map, and to apply for the appointment of three Commissioners of Estimate and Assessment for such widening and straightening. The Corporation Counrdingly applied to the Supreme Court at special Term, and three Commissioners of Estimate and Assessment were appointed, who proceeded to sear all the parties, according to law, and made a report awarding damages to various per-sons whose lands were taken, assessing the exsense upon the lots within a certain district pecified by the act, or their owners, and ilso awarding the amounts which the city should ive from parties owning land fronting on Broadyay and abutting on any part of the present street based by the act of the Commissioners of the Central Park in laying out the improvement for the release of the public interest. The report so made was con-armed upon notice, and after hearing counsel for the various parties and also the Corporation Coun-cel representing the Mayor, Aldermen and Common-aity of the city of New York. The order of confirmation was entered by the Corporation Counsel on he 28th day of December, 1870. No appeal was aken from this order of confirmation, nor were any steps taken to impeach it in any way. On the 27th of February, 1871, the Legislature passed an act at-tempting to authorize an appeal from this order, of Pebruary, 1871, the Legislature passed an act attempting to authorize an appeal from this order, and also a motion to be made before a Justice of the Supreme Court to vacate the order and annut the awards and all the proceedings. This act declares that it shall be the duty of the Judge hearing such motion, if it shall appear to him that there was any error, mistake, irregularity or thegal act in the proceedings, or that the assessments or awards, or any of them, were unlair or unjust or inequitable or oppressive as respects the city or any other persons, to vacate the same or other Commissioners. On the 11th of the same or other Commissioners. On the 11th of the same or other Commissioners. On the 11th of the same or other Commissioners. On the 11th of order confirming the report of the Commissioners which had been confirmed on his motion on the 28th of December, 1870. The motion was heard before Judge Cardozo, who granted an order vacating and setting saide the whole report and all the awards, reciting that there was error, mistake, irregularity and Hiegal acts in the proceedings, and that the assessments for benefit and the awards for damage were unfair, unjust, inequitable and oppressive as respects the Mayor, Aldermen and Commonalty of New York and others. The order appointed a new Commission, consisting of two persons, who were not members of the former Commissioners, and directed them to make an entire new assessment, both for damages and benefits. Mr. J. Watts Depeyster, one of the parties to whom compensation had been awarded ior property taken by the opening and improvement of the street, appeals from this order.

RX-Judge Emott read a lengthy argument on behalf of the appellant. He insisted that the order of fudge Cardozo was appealable, and that the Court and to consider and decide—first, whether the Legislature had the constitutional power to pass the act of February, 1871; and, second, whether the order made by Judge Cardozo is a just or constitutional exercise of any power which the Legislature could conier upon a Court or Judge. The order of December 23, 1870, confirming the report of the Commissioners of Estimate and Assessment, appointed under the act of 1809, he insisted was the final adjudication and order of the Supreme Court in the premises, and that the motion to confirm that report could have been made either at Special or General term. The appeliant made no complaint as to the award in his case, and it was not shown or alleged in any of the papers or proceedings to have alleged in any of the papers or proceedings to have Court in the promises, and that the motion to confirm that report could have been indeed either at Special or General term. The appellant made no complaint as to the award in his case, and it was not shown or alleged in any of the pajens or proceedings to have been affected by any error, miscake, irregularity or illegia, act, or to have been unfair, unjust, inequitable or oppressive. The Legislaure in passing the act of 1571 assumed to authorize or direct a Court or Jingge arbitrarily, without an appeal in due course of law, upon affidavits not served, to set aside a judgment or judicial determination in lavor of a party, to grant a new trial and direct the cause to be reheard before different arbitrariors. It this could be done in this case the Legislaure might authorize any judgment taken in any time since the first institution of the State government to evacated and set aside, and all rights acquired under it destroyed upon a motion heard upon addiavits. No such power has ever been recognized by Courts or Judges in this istale. On the contrary, it has been expressly denied whenever asserted or claimed. The act of 1860 and the proceedings under it, with the report of the Commissioners, the award and its confirmation, including the actual appropriation of the street by its opening, as directed by the Commissioners on the day fixed by them, constituted a contract which the law and the constitution authorized and compelled the land owners to make with the public, and which, like all other contracts, is entitled to the protection of the United States and of the Corporation of the city of New York, as a trustee for the public, not only a street the state of the protection of the constitution of the United States, and any issue and with the public, and which, like all other contracts, is entitled to the protection of the constitution of the United States, and any issue and any indeed to the protection of the constitution of the constitution of the contract is within the protection of the constitution of the protect

clusion reasons for altering or vacating the awards to the city, but there was none for anadling the whole proceeding.

Angument in favor of sustaining dudge Cardozo's order. The first point he raised was that the Commissioners of Awards and Estimates, in imposing the assessment of \$1.637,879 against the Central Park Commissioners, was irregular, lifegal and void. It was irregular, incompetent and illegal, he claimed, to impose this assessment after the abstract had been hied in the office of the Commissioner of Public Works, without notice to the Mayor, Aldermen and Commonalty, and an opportunity of being heard before Commissioners and before the presentation of the report to the Court for confirmation. His second point was that the Commissioners had no authority to reduce the awards made to the Mayor, Aldermen and Commonalty. His next point was that the Commissioners were not authorized to amend their report after filing an abstract by charging any portuon of the expense of the improvement on the Mayor, Aldermen and Commonaty, he insisted that the same facts exist as to this assessment on the presenting upon the abstract hied in the office of the

Commissioner of Public Works, but having been added subsequently, ar exist in the case of the assessment on the Central Park. By this amended report the awards were more than doubled. To meet this \$3,682.24 of was imposed without notice on the Central Park and Mayor, Aldermen and Commonalty; add to this amount the \$464.38 deducted from the awards to the city for the portion of Broadway which was closed and we have an agregate of change by the Commissioners of \$4,135,632.64. He submitted that it was not the intention of the clause in section two of the act, relating to the assessment of one-third of the expense upon the Mayor, Aldermen and Commonalty, to allow an assessment of one-third of the expense in addition to the amount which might be imposed upon the Mayor, Aldermen and Commonalty, to allow an assessment for one-third of the expense in addition to their ownership of the Central Park. He insisted further that the Central Park is not liable to assessments for local improvements. It is totally at variance and inconsistent with the uses and purposes for which the park was created. The parks are held by the city by the same filte, and no other, that the excess are held. After alluding to the alleved unfair and hiegal award of \$150,000 to the late Mr. Watson for the small portion taken of two lots he owner, he urged that the Legislature could eathorize an application to the Court to vacate the order of confirmation, and that the act of February 27, 1871, was, in all respects, a valid exercise of propore legislative power. The rights of the appellant had not been finally and conclusively vested. The proceedings were liable to reversat on appeal, and, this being the case, it was within the nower of the Legislature to extend the time for appealing or to prescribe a new mode in which the proceedings should only be reviewed. The argument of appellant must come up to the proposition that he had a vested right to require an application from one tribunal to another. The Legislature, provided it does not violate the co

THE RIVERSIDE PARK.

Legal Controversy Over the Awards and Assessments.

Appeal from the Confirmation of the Report.

Argument Before the Supreme Court, General Term.

In the Supreme Court, General Term, Judges Inthe Riverside Park was up for argument yesterday on the appeals from the confirmation of the report of the Commissioners of Estimate and Assessment. The history of the case, in connection with prelimquently and fully given in the HERALD to require recapitulation. One thing seems very certain, and that is that if the matter is kept much longer in the courts the project will never get beyond its present inceptive progress—a mere park on paper. First came a lengthy argument on behalf of

PRIVATE PROPERTY OWNERS by Mr. Anderson. He urged in general terms that there is error in assessing lots on north side of Seventy-first street for benefit in a larger sum than is assessed upon the lots on the southerly side of assessed for benefit under the act, and that such property is incapable of receiving benefit from the improvement, and therefore is not assessable. He also enlarged at length upon the act of the Legisla-ture providing for the Park, and claimed that the

the city. He then went on to say that the status empowers the Commissioners to assess the property which they deem to be benefited to the extent to which they deem to be benefited to the extent to which they deem to be benefited to the extent to which they deem to be benefited. They determine the amount of benefited to the commissioners are modeles and expresses which tend to confer advantage. The assessment levied by the Commissioners embodies and expresses their judgment as to the advantage derived by the parcels assessed from the improvement. The judgment of the Commissioners is conclusive, as to the fact and amount of benefit, unless some erroneous principle of assessment has been adopted. In this case no error of principle can be discerned. The Commissioners, in the exercise of their discretion, have extended their assessment to property which observed the property of the same sireet. Defouring to the same persons. But these facts, he insisted, on not present any question of principle. The assessments are the result of the exercise of the discretion of the Commissioners, exercised in view of all the facts upon which their judgment is based, and with that judgment the Count will not interiere.

At the close of Mr. O'Gorman's argument ex-Judge Strong presented the case of the New York Contral and Hudson River Railroad Company, which is among the appoilants. He insisted that there was portion that had been taken of the New York Contral and Hudson River Railroad Company, which is among the appoilants. He insisted that there was portion that had been taken of the premises to some other public use, the power is limited to the direct action of the Legislature itself, declaring the appoilant road has been constructed and is in operation, by appropriating the upon the park in question. He insisted that the Legislature has been contracted and is in operation of the park of the properties of the promises to some other public use, the power is minded to the factorial premises, and cannot be delegated. He urged intrier

FINANCIAL AND COMMERCIAL.

WALL STREET,
MONDAY, NOV. 13, 6 P. M.
On 'Change wheat was strong early in the day on
the theory that the cooler weather promised a
speedy closing of canal navigation, but failed to
hold its firmness in view of the lower range of gold.
Cotton was strong and a shade higher.

Cotton was strong and a shade higher.

MONEY EASY.

The money market was easy, and borrowers had little dimently in supplying their wants at five to six per cent, the transactions being as large at the former as at the latter figure, the distinction being due simply to the greater or less favor in which borrowers and collaterals atood with lenders. Time loans were also accessible at seven per cent. Prime namer was quoted 9, a 12 ner cant. paper was quoted 9 a 12 per cent.

paper was quoted 9 a 12 per cent.

Foreign exchange was steady on the basis of 108% a 108% for prime unnkers sixty-day sterling and 109% a 100% for sight storling. The leading houses all asked the same rates but allowed different commissions, some as much as one-eignth per cent.

GOLD WEAK-111% A 111%. The gold market was weak on, first, the cable despatch in the Sunday newspapers amouncing the lowering of the discount rate of the Bank of Belgium to four per cent and, second, the receipt of private despatches stating that money in the open market in London to-gay was worth only three and a half per cent—doubtless a consequence of the despatch first mentioned. Naturally the inference was deduced that the Bank of England on Thursday must lower their rate from five per cent and the speculative sentiment became active on the "bear" side, occasioning a decline from 111% to 111%. The course of the market is shown in the taple:— The gold market was weak on, first, the cable decourse of the market is shown in the table:-

SOUTHERN SECURITIES ACTIVE.

The Southern State bonds displayed more activity than has been their wont for a considerable time, the speculative and investment inquiry taking quite a range of the list. The Tennessees were quite strong, with dealings up to 67%, and the new South Carchinas were in better supply, at 36 a 35. Good buyers show a disposition to take the latter bonds at current quotations, even with the uncertainty as to a large overissue, the effect of which, they reason, has been discounted. Of course they take all the chances with the investment. The new Texas ten per cents met their first sale to-day, at 90, which was bid for more. The following were the closing street quotations for the Southern list:—Tennessee, ex coupon, 65% a 66; do. new, 67% a 68; do. new, 67% a 68; do. sevens, gold, 91; North Carolina, ex coupon, 85% a 90; do. sevens, gold, 91; North Carolina, ex coupon, 85% a 24; do. new, 19% a 20; do. special tax, 15 a 16; Missouri fake, 61 a 65; do. new, 68% a 62; do. levee sixes, 61 a 65; do. oe, leys, 32 a 68; do. levee sixes, 61 a 65; do. oe, leys, 32 a 68; do. levee sixes, 61 a 65; do. oe, leys, 38 a 62; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. leys, 58 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 61 a 65; do. oe, leys, 48 a 69; do. levee sixes, 6 do., coupon, 109% a 110.

Southern Securities active.

> The fortuitous combination of circumstances attending the monetary situation here and abroad, so nnusual, if not abnormal at this season, has been further taken advantage of by the "bull" cliques but without as yet enlisting much interest on the come (say the "bulls") if human nature remains the same for a few weeks hence as it has been in the past experience of Wali street. Indeed the courage of the 'buil' cliques in taking hold and buying without stint a month ago, when the Chicago disaster and the failure of about thirty insurance companies threat. ened a universal pante deserves no ordinary reward. They have wavered once or twice since they turned the market in the upward direction, and would perhaps have taken their profits had public enthusiasm been extended enough to have made a market for the immense quantity of stocks which they are credited with possessing. But the public have seldom had so little interest in stock speculation. Hence the absence of an essential requisite to the success of unloading. It was doubtless a desperate determination to await their day-for "oulls" and "bears" each have their day, wait they ever so longthat turned them once more to the business of advancing prices, and as the only speck of danger in the future, so far as they could see, was the danger of a fizzle in the Syndicate manipulation of the new loan on December 1, and as Washington and London advices gave assurance that no trouble need be apprehended in that direction, steam was let into the speculative engine once more and a fresh departure taken for an indefinite destination on the high road of prices. The extent of the day's improvement will be seen by an inspection of the table below of tile highest and lowest quotations of the leading stocks, in which enumeration we omit Lake Shore "old" stock, which is now rarely dealt in owing to the small sup ply on the street, the certificates having been nearly all submitted to the Union Trust Company for receipt of the scrip dividend and converted, by stamping, into "new" stock. Pacific Mail was active on a report that the parties seeking control of the next election will, if successful, move for an immediate distribution of such assets as HIGHEST AND LOWEST PRICES.
